COMPANY INTRODUCTION

Jiangmen PromaXX Extrusion Technology Co.,Ltd. is a Sino-German joint venture with rich experience in the extruder industry.

Extruder Experts GmbH & CO.KG, our German shareholder, is a wellknown brand with good reputation in European market.

We are dedicated to providing our customers with screw elements, barrels, shafts and other twin-screw extruder accessories, as well as the maintenance & replacement of gearboxes, screws dismantling equipment, screws cleaning equipment, barrel screw wear detection and other professional technical services.

WHY PROMAXX?

Rich experience in extruder industry.

Professional solutions for high wear and corrosion resistant steels.

Strict quality management system.

Screw Elements

Brands	Coperion, Leistritz, KraussMaffei, JSW, Toshiba, Baker Perkins, SM Platek, Wenger, Clextral, Bühler, BUSS and many other famous brands
Materials	Tool steel, PM-HIP steels, stainless steel, Ni-based alloys, Co-based alloys, Tip-welding

Barrels

Brands

Coperion, Leistritz, KraussMaffei, JSW, Toshiba, Baker Perkins, SM Platek, Wenger, Clextral, Bühler and many other famous brands

Shaft & Accessories

Spline Type

- -DIN5480 /JIS-B-1603/GB3478 involutes spline
- -Hexagon
- -Half-round key slot

Maintenance & Replacement of Gearboxes

Product Services

- · Customized new gearbox
- · Replacement of original gearbox
- · Maintenance and repair of gearbox

Maintenance experience of top brands gearboxes such as Henschel, Eisenbeiss, Zambello, Flender, JSW, etc.

Maintenance Equipment & Service

Maintenance Equipment

- PRO-COOL Screw Cleaning Machine (D100 Covered Type/D150 Open Tyoe)
- · PRO-EASY Screw Dismantling Machine
- · PRO-CLEAN Cooling Channel Cleaning Machine
- · PROMAC Barrel Wear Inspection Device

SCREW ELEMENTS

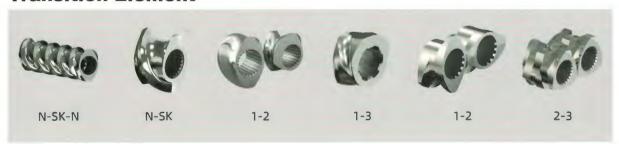

Kneading Block

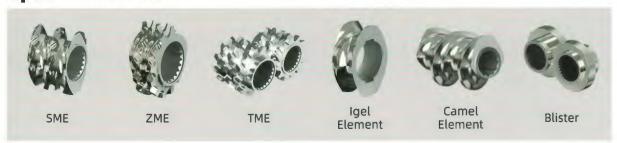

Conveying Element

Single Flighted SK Flighted RKB NKB XKB

Transition Element

Special Element

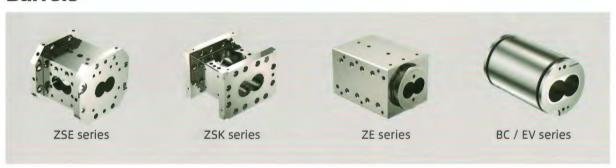

BARRELS & ACCESSORIES

Diameter	Ф10-Ф450mm
Brands	Coperion, Leistritz, KraussMaffei, JSW, Toshiba, Baker Perkins, SM Platek, Wenger, Clextral, Bühler and many other famous brands.
Types	Closed、Feed、Side-open、Combi, etc.

Barrels

Accessories

SHAFTS & ACCESSORIES

EXTRUDER SPARE PARTS

Diameter	Ф10-Ф120mm
Length	< 12 Meter
Spline Type	DIN5480、JIS-B-1603、GB3478 Involute Spline Hexagon, Keyway Half-round key slot, Rectangular spline
Material	High torque steels (Power density up to 18Nm/ cm³)

Shafts & Accessories

Other Accessories

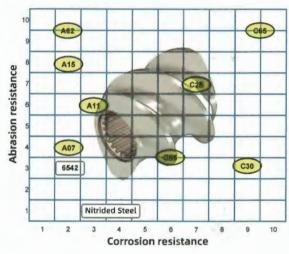

PM-HIP STEELS

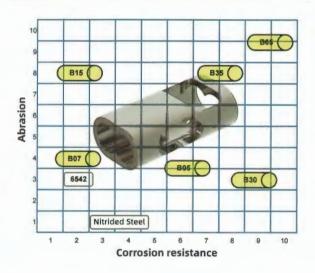

European Steel Grades

- -Cold-working tool steels;
- -Martensite stainless steels:
- -PM-HIP tool steels, PM-HIP HSS;
- -Ni-based alloys, Co-based alloys
- IQC of Raw Material
- -Chemical analysis;
- -Microstructure inspection;
- -Material certificate;
- -Certificate of Origin

Professional heat treatment High pressure vacuum quenching, vacuum tempering, gas nitriding, plasma nitriding, QPQ, etc.

Spare Part	Characters	Code	Steel Category	Hardness (HRC)	Abrasion Resistance (1-10)	Corrosion Resistance (1-10)	Mechanical Properties (1-10)
		A07	Cold working tool steel	56 - 60	4	2	4
5crew Element	Abrasion	A11	Cold working tool steel	58 - 62	6	4	6
	Resistance	A15	PM-HIP tool steel	60 - 64	8	2	6
		A62	PM-HIP high speed steel	64 - 66	10	2	4
	Corrosion Resistance	C05	Stainless steel	55 - 58	3	5	4
		C09	Stainless steel	46 - 50	3	7	5
		C25	PM-HIP high chrome steel	56 - 60	7	7	6
		C30	5pecial stainless steel	56 - 60	3	9	8
		C65	Ni-based alloy	58 - 62	9	9	5
Liner Plug Die Plate	Abrasion	B07	Cold working tool steel	56 - 60	4	2	4
	Resistance	B15	PM-HIP tool steel	58 - 62	8	2	5
	Corrosion Resistance	B05	Stainless Steel	55 - 5B	4	6	4
		B35	PM High Chrome Steel	58 - 62	8	7	5
		B30	High Nitrogen Steel	56 - 60	3	8	8
		B65	Ni-based alloy	58 - 62	9	9	5

Spare Part	Characters	Code	Steel Type	Hardness (HRC)	Tensile Strength	Yield Strength	Impact Strength
Shaft		HT	Tool Steel	38 - 42	***	****	****
	High Torque	ст	Stainless Steel	36 - 40	***	***	***
		ST	Special Stainless Steel	40 - 44	****	****	****

Customized new gearbox Replacement of original gearbox

- » Adopting a dual power distribution structure, torque factor>13Nm/cm³
- Professional forward research and development capabilities, able to provide professional customized gearbox and services
- » Top brands bearings and sealings
- » Professional assembly and testing technology, rigorous factory inspection of the entire machine
- » Lifetime maintenance and after-sales service

Maintenance and Repair of gearbox

- \gg Monitoring, analysis, and diagnosis of gearbox vibration spectrum and noise
- » Oil temperature monitoring, oil analysis, abrasive wear detection
- Evaluation of gear meshing status and strength verification; Prediction of bearing life and status warning
- Actual back pressure detection during screw operation; Motor shaft/input shaft alignment detection
- » Maintenance experience of top brands gearboxes, such as Henschel, Eisenbeiss, Zambello, Flender, JSW, etc.

PRO-COOL D100

Covered Screw Cleaning Machine

- √ High Pressure Water Cleaning
- √ Easy & Convenient Operation
- √ Closed Hatch Design Safe & Low Noise
- √ For Small & Medium-sized Screw Cleaning

Overall Dimensions	4300*1200*1900mm(L*W*H)
Max Screw Length	3.2m(customizable)
Max Screw Diameter	ф100mm
Weight	2000KG
Power Supply	380V / 50Hz / 43KW
Cleaning Pressure	2000 / 2500 Bar
Cleaning Efficiency	Average<30mins/screw
Cleaning Media	Tap Water
Water Flow Rate	9L/min
Filter	One-stage
Screw Rotating Speed	Adjustable
High-pressure Pump	URACA or OH
Moto	ABB
PLC	Mitsubishi, Siemens

PROMAC Barrel Wear Inspection Device

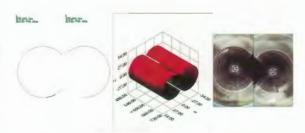

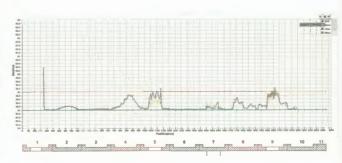

- √ Applicable for all Liner Material
- √ Wider Detection Range
- √ Real-Time VCR
- ✓ Intuitive Wear Curve

PARAMETERS

Overall Dimensions	ф38mm*650mm
Power Supply	3.7V Lion-Battery
Total Weight	1.5KG (measuring head)
Power	< 2W
Efficiency of Measurement	< 30mins
Inner Diameter Range	ф40-450mm (customizable)
Accuracy	±0.01mm
Circumferential Measuring Points	360°
Axial Measurement Resolution	3-5mm
Working Temperature	<50°C
Inner Bore Condition	Clean, Smooth
